## sHLA-B\*15:02

B\*1502, B1502, B\*15, B15, B75

|                         |              |
|-------------------------|--------------|
| <b>Serological Name</b> | B75          |
| <b>Peptide Load</b>     | Endogenous   |
| <b>Modification</b>     | Unmodified   |
| <b>Conjugation</b>      | Unconjugated |
| <b>SKU</b>              | B1502        |

### Product Description

|                                            |                                                                                                                                            |
|--------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Allele Name</b>                         | B*15:02<br>B2m                                                                                                                             |
| <b>HLA Class</b>                           | HLA Class I                                                                                                                                |
| <b>HLA Gene Locus</b>                      | HLA-B                                                                                                                                      |
| <b>Alternative Allele Name A Chain</b>     | B*1502, B1502, B*15, B15, B75                                                                                                              |
| <b>Alternative Allele Name B Chain</b>     | –                                                                                                                                          |
| <b>Description</b>                         | Recombinant, truncated Class I soluble Human Leukocyte Antigen (sHLA), naturally folded and glycosylated, loaded with endogenous peptides. |
| <b>Serological Name</b>                    | B75                                                                                                                                        |
| <b>Serological Split</b>                   | B15                                                                                                                                        |
| <b>Bw4/Bw6 Assignment</b>                  | Bw6                                                                                                                                        |
| <b>Bw4/Bw6 Sequence</b>                    | SLRNLRG                                                                                                                                    |
| <b>Allele Frequency [World Population]</b> |                                                                                                                                            |
| A chain                                    | 2.8%                                                                                                                                       |
| B chain                                    | –                                                                                                                                          |

## Product Specification

|                             |                                                                                 |
|-----------------------------|---------------------------------------------------------------------------------|
| Product name                | HLA-B*15:02                                                                     |
| HLA Species                 | Human                                                                           |
| Host Cell Line Species      | Human                                                                           |
| Clone Designation           | E2D7                                                                            |
| Tail Specification          | VLDL                                                                            |
| Peptide Load                | Endogenous                                                                      |
| Modification                | Unmodified                                                                      |
| Conjugation                 | Unconjugated                                                                    |
| Complexity                  | Monomer                                                                         |
| Protein Format              | Recombinant, truncated, soluble, non-modified, non-labeled, endogenously loaded |
| Storage Temperature         | 4 °C (This product should be stored undiluted)                                  |
| Form                        | Liquid                                                                          |
| Concentration               | 1000.0 µg/µl                                                                    |
| Formulation                 | PBS/0.02% Sodium Azide                                                          |
| pH                          | 7.4                                                                             |
| Purification Method         | Affinity Chromatography                                                         |
| Grade                       | Research Use Only [RUO]                                                         |
| Authentication Verification | Sequence Based Typing                                                           |
