## sHLA– DQB1\*03:03 DQA1\*03:01

DQB1\*0303, DQB10303, DQB1\*03, DQB03, DQ9  
DQA1\*0301, DQA10301, DQA1\*03, DQA03

|                         |                   |
|-------------------------|-------------------|
| <b>Serological Name</b> | DQ9               |
| <b>Peptide Load</b>     | Endogenous        |
| <b>Modification</b>     | Unmodified        |
| <b>Conjugation</b>      | Unconjugated      |
| <b>SKU</b>              | DQB10303/DQA10301 |

### Product Description

|                                            |                                                                                                                                             |
|--------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Allele Name</b>                         | DQA1*03:01<br>DQB1*03:03                                                                                                                    |
| <b>HLA Class</b>                           | HLA Class II                                                                                                                                |
| <b>HLA Gene Locus</b>                      | HLA-DQ                                                                                                                                      |
| <b>Alternative Allele Name A Chain</b>     | DQA1*0301, DQA10301, DQA1*03, DQA03                                                                                                         |
| <b>Alternative Allele Name B Chain</b>     | DQB1*0303, DQB10303, DQB1*03, DQB03, DQ9                                                                                                    |
| <b>Description</b>                         | Recombinant, truncated Class II soluble Human Leukocyte Antigen (sHLA), naturally folded and glycosylated, loaded with endogenous peptides. |
| <b>Serological Name</b>                    | DQ9                                                                                                                                         |
| <b>Serological Split</b>                   | DQ3                                                                                                                                         |
| <b>Allele Frequency [World Population]</b> |                                                                                                                                             |
| <b>A chain</b>                             | 19.9%                                                                                                                                       |
| <b>B chain</b>                             | 5.2%                                                                                                                                        |

| Peptide Load                | Endogenous                                                                                         |
| Modification                | Unmodified                                                                                         |
| Conjugation                 | Unconjugated                                                                                       |
| Complexity                  | Monomer                                                                                            |
| Protein Format              | Recombinant, truncated, zipper-stabilized, soluble, non-modified, non-labeled, endogenously loaded |
| Storage Temperature         | 4°C (This product should be stored undiluted)                                                      |
| Form                        | Liquid                                                                                             |
| Concentration               | 1000.0 µg/ml                                                                                       |
| Formulation                 | PBS/0.02% Sodium Azide                                                                             |
| pH                          | 7.4                                                                                                |
| Purification Method         | Affinity Chromatography                                                                            |
| Grade                       | Research Use Only [RUO]                                                                            |
| Authentication Verification | Sequence Based Typing                                                                              |
